Dear Mr. Narozanick:

We are very pleased to provide this recommendation of American Athletic Courts, Inc., relative to the construction of running tracks and other outdoor athletic facilities. Over the last several years, your company has been the successful bidder on several such projects designed by this office. In every case, you have provided the highest quality of workmanship while always maintaining the stated project schedule. Additionally, you have been highly effective in dealing with the everyday problems that arise in any construction project and more than cooperative in handling the special needs of our various clients. While you have served as the General Contractor on a number of different type projects for our clients including irrigated athletic fields and various field events, your expertise in synthetic running track surfaces has been particularly appreciated. We look forward to a continuing relationship between our two companies.

Very truly yours,

Frank M. Monti, P.E.
